

JUNIOR FRENCH COURSE

The **inlingua** method allows students to work on all aspects of the French language and culture and get the most out of an immersive experience in the country.

Classes

Our aim is for our students to learn French in a natural way and work on speaking and writing skills through lively and interactive activities. We emphasize the importance of speaking in real-life situations and working on conversational fluidity. Parents also participating in our courses have frequently told us their child had got a real taste for the French language after their stay with **inlingua**.

Groups

Through our online level placement test and an oral test with a teacher on the first morning, our teachers will make sure that the students participate in classes appropriate for their level to ensure optimal progress with their French.

Class projects

Each week the students work on a class project allowing them to use all they have learned in a real-life situation, for example: setting up a travel blog to talk about their time in La Rochelle, activities that can be done here, giving advice to future travellers. Students often create their own short films, or write stories in the classic French "bande dessinée" style.

Programme

Monday: 10:00 to 1:15 (15-min break)

Tuesday to friday: from 9:00 to 12:15 (15-min break)
